

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## **The Scientific Monthly**

An illustrated magazine, devoted to the diffusion of science, publishing articles by leading authorities in all departments of pure and applied science, including the applications of science to education and society. Conducted on the editorial lines followed by *The Popular Science Monthly* since 1900.

Annual Subscription \$5.00; single copies, 50 cents.

## **Science**

A weekly journal, established in 1883, devoted to the advancement of the natural and exact sciences, the official organ of the American Association for the Advancement of Science. For twenty years SCIENCE has been generally regarded as the professional journal of American men of science.

Annual Subscription \$5.00; single copies 15 cents.

## **School and Society**

A weekly journal, which began publication on January 2, 1915, covering the field of education in relation to the problems of American democracy. Its objects are the advancement of education as a science and the adjustment of our lower and higher schools to the needs of modern life. Each number ordinarily contains articles and addresses of some length, shorter contributions, discussion and correspondence, reviews and abstracts, reports and quotations, proceedings of societies and a department of educational notes and news.

Annual Subscription \$5.00; single copies 15 cents.

## **The American Naturalist**

A monthly journal, established in 1867, devoted to the biological sciences with special reference to the factors of organic evolution.

Annual Subscription \$5.00; single copies \$1.00.

## **American Men of Science**

A biographical directory, containing the records of about 5,500 scientific men. Price, \$5.00 net.

## **Science and Education**

A series of volumes for the promotion of scientific research and educational progress.

### **Volume I. The Foundations of Science**

By H. POINCARÉ. Containing the authorized English translation of George Bruce Halsted of "Science and Hypothesis," "The Value of Science," and "Science and Method." Out of Print.

### **Volume II. Medical Research and Education**

By RICHARD MILLS PEARCE, WILLIAM H. WELCH, C. S. MINOT and others.

Price, \$3.00 net

### **Volume III. University Control**

By J. McKEEN CATTELL and other authors.

Price, \$3.00 net

# The American Naturalist

A Bi-Monthly Journal, established in 1867, Devoted to the Advancement of the Biological Sciences with Special Reference to the Factors of Organic Evolution and Heredity

## CONTENTS OF THE NOVEMBER-DECEMBER NUMBER

Inheritance of White Spetting and Other Color Characters in Cats. Dr. P. W. Whiting.  
Some Habitat Responses of the Large Water-strider, *Gerris remigis* Say. C. F. Curtis Riley.  
Behavior and Assimilation. Dr. Henry D. Hooker, Jr.  
On the Use of the Sucking-fish for Catching Fish and Turtles—Studies in *Echeneis* or *Remora*. Dr. E. W. Gudger.  
Variability in Flower-number in *Vernonia missurica* Raf. Dr. H. A. Gleason.  
Darwin's Contribution to the Knowledge of Hybridization. Herbert F. Roberts.  
Shorter Articles and Discussion: Does Evolution occur exclusively by Loss of Genetic Factors? Professor W. E. Castle. Anomalous Ratios in a Family of Yellow Mice suggesting Linkage between the Genes for Yellow and for Black. Dr. L. C. Dunn. Genetics and Evolution in *Leptinotarsa*. C. R. Plunkett.  
Index to Volume LIII.

## CONTENTS OF THE MARCH-APRIL NUMBER

Are the Factors of Heredity arranged in a Line. Dr. H. J. Muller.  
Influence of the Male in the Production of Human Twins. Dr. C. B. Davenport.  
Inheritance of Congenital Palsey in Guinea-pigs. Professor Leon J. Cole, Dr. Herman L. Ibsen.  
Animal Life and Sewage in the Genesee River, New York. Frank Collins Baker.  
Alternative Explanations for Exceptional Color Classes in Doves and Canaries. Dr. C. Little.  
Shorter Articles and Discussion: Trichomonas and Blackhead in Turkeys: Professor Philip Hadley. The Intensity of Assortive Pairing in Chromodoris. Dr. W. J. Crozier. The Origin of the Intolerance of Inbreeding in Maize. Dr. Paul Weatherwax.  
Notes and Literature: Whitman and Riddle on Orthogenetic Evolution in Pigeons. Professor W. E. Castle.

## CONTENTS OF THE JULY-AUGUST NUMBER

Inheritance of Callosities in the Ostrich. Dr. J. E. Duerden.  
The Selection of Food-Plants by Insects, with special reference to Lepidopterous Larvae. Dr. Charles T. Brues.  
The Manipulation and Identification of the Free swimming Mastigophora of Fresh Waters. Dr. Leon Augustus Hausman.  
Neoteny and the Sexual Problem. Dr. W. W. Swingle.  
Shorter Articles and Discussion: The Tabulation of Factorial Values: Professor Charles Zeleny. An Experiment on Regulation of Plants: Professor E. Newton Harvey. Inherited Predisposition for a Bacterial Disease: A. C. Hagedoorn-LaBrand, A. L. Hagedoorn. Note on the Photoc Sensitivity of the Chitons: Dr. W. J. Crozier. The Bionomics of *Porichthys notatus* Girard. Carl L. Hubbs.

## CONTENTS OF THE JANUARY-FEBRUARY NUMBER

Certain Evolutionary Aspects of Human Mortality Rates. Professor Raymond Pearl.  
On the Reaction of Tissues towards Synogenesis, Homio and Heterotoxins, and on the Power of Tissues to discern between Different Degrees of Family Relationships. Dr. Leo Loeb.  
The Individuality-differential and its Mode of Inheritance. Dr. Leo Loeb.  
Linkage in Rats. Herman L. Ibsen.  
Some Habitat Responses of the Large Water-strider, *Gerris remigis* Say. Dr. C. F. Curtis Riley.  
Shorter Articles and Discussion: Sex Correlated Coloration in Chiton tuberculatus; On the Alkalinity of the Sea Water in Lagoons at Bermuda. Dr. W. J. Crozier. A Simple Method of Measuring the Rate of Respiration of Small Organisms. Dr. M. H. Jacobs.

## CONTENTS OF THE MAY-JUNE NUMBER

Chiasmotype and Crossing-over. Professors E. B. Wilson and T. H. Morgan.  
Variations in the Secondary Sexual, Character of the Fiddler Crab. Professor T. H. Morgan.  
Sable Varieties of Mice. Dr. L. C. Dunn.  
Shorter Articles and Discussions: Hybridization and Evolution. Professor E. M. East. The Measurement of Linkage. Professor W. E. Castle. Is there Linkage between the Genes for Yellow and for Black in Mice? Dr. C. C. Little. Crepis—a Promising Genus for Genetic Investigations. Professor Ernest B. Babcock. The Inheritance of Congenital Cataract in Cattle. Professor J. A. Detlefsen and W. W. Yapp. Further Observations on Sex in *Mercurialis annua*. Cecil Yampolsky. Comments on a Recent Check List. Dr. Thomas Barbour.

## CONTENTS OF THE SEPTEMBER-OCTOBER NUMBER

Stenothermy and Zone-Invasion. Professor William Albert Setchell.  
Phylogeny of the Arthropoda, with especial reference to the Trilobites. Dr. Percy E. Raymond.  
The Utilization of Echinoderms and of Gasteropod Mollusks. H. P. Kierskog-Agersborg.  
The Vibratile Oral Membranes of *Glaucoma scintillans*, Ehr. Dr. Leon Augustus Hausman.  
The Bionomics of Mellita. Dr. W. J. Crozier.  
The Insect Enemies of Polyporoid Fungi. Dr. Harry B. Weiss.  
Shorter Articles and Discussion. Notes on the Nematode Genus *Camallanus*. Dr. Thomas Byrd Magath. An Amicronucleate Race of *Paramecium caudatum*. Eugene M. Landis. The Occurrence of a Probable Sex-Linked Lethal Factor in Mammals. Dr. C. C. Little. Concerning the Fossilization of Blood Corpuscles. Dr. Roy L. Moodie.

Single Number \$1.00

Yearly Subscription, \$5.00
